

What's changing in our Third-Party Service Providers list

We're updating our Third-Party Service Providers list, effective 11 August 2026. This update provides clarifications and corrections to regional hosting, service and supporting information contained in version 4.0.

Version 4.1 supersedes version 4.0 following the identification and correction of regional information that did not accurately reflect the SmartyGrants UK environment.

The list is available at <https://www.smartygrants.com/policies#third-party-service-providers>.

1 UK Hosting and information updated

Hosting, processing, service and contact information has been reviewed and updated to accurately reflect the SmartyGrants UK environment.

2 Supporting provider information updated

Provider privacy, compliance and supporting references have also been reviewed and updated to improve their accuracy and currency.

This summary is a plain-English guide to the changes. The SmartyGrants UK Third-Party Service Providers document itself is the authoritative document. If you have questions, contact us at service@smartygrants.co.uk
